

MEGA 179

FOR ALL LARGE AND SMALL POTS

Further
information

ABOUT THE MEGA 179

The manual lifter with one-piece lifting comb has folding arms for pocket pick-up of waste containers with a volume of 2.5 to 5 m³ as well as MGB folding arms for all small waste bins. It also has a swivelling guide flap – the low rake rail enables ergonomic loading and convenient handloading of bags. Ideal for: Industrial and commercial areas as well as for bulk collection.
