

MEGA 356

THE MULTI-TALENT

Further
information

ABOUT THE MEGA 356

With two separate pick-up units, the manual lifter offers a wide range of emptying options and is particularly suitable for disposal in industrial and commercial areas as well as for bulk collection. The MEGA 356 has a MGB swinging arm with lifting comb and integrated folding arms as well as a large container swinging arm with lifting hooks or chain assembly for skip containers. Its low rave rail enables ergonomic loading and convenient handloading of bags and bulky goods.

SERIES OPTIONS
