

MEGA 379

COMMERCIAL WASTE? NO PROBLEM.

Further
information

ABOUT THE MEGA 379

The manual lifter has two separate pick-up units for MGB and large containers: an MGB swinging arm with one-piece lifting comb and integrated folding arms for all small waste bins and a swinging arm for large skip containers with a volume of 2.5 to 5 m³. Plus: Skip containers with a volume of 7 to 10 m³ can be lifted with the chain assembly.
