

# MBR4

Available tank sizes:

Fresh water + waste water

- 2 x 8000 l

- 2 x 7000 l

- 2 x 5500 l

Optional: 400 l hot water tank

Solids volume sludge chamber 1,2 m<sup>3</sup>

Water tank design completely in stainless steel as standard

Can be equipped with optional lifters:

- Zöller Delta 301 split, manual
- Zöller Delta 321 one-piece, manual
- Zöller Delta 2301 split, automatic

Full ease of use:

- Independent wash cycle (left + right)
- Automatic container detection

- Washing process fully integrated into the lifter cycle

Easy maintenance access to the washing chamber via a swing door

Water pressure : 100 bar

Water quantity : 100 l/min

Washing time :

- Infinitely adjustable on the control terminal

- Preselect short or long wash at the control panel
  - Default setting: - short 8 seconds
    - long 12 seconds

- Container washing capacity: Up to 600 containers per shift

Wash chamber design:

- Optional part stainless steel

- Optional full stainless steel

Wash arms:

- work independently of each other

- carry out vertical work movements during the washing process for the best possible cleaning results

Waste water drain :

- via generously dimensioned drain strainers

# MBR 4 – Spray lance with hose reel

Hose reel with spray lance for manual tank cleaning

### MBR 4 – Pneumatic waste water pumping

Pneumatic waste water pumping :

- Fully automatic
- blockage-free
- No moving components
- Completely maintenance-free
- No wearing parts
- Easy to clean
- Made entirely of stainless steel

### MBR 4 – FGT Terminal

Colour graphic terminal with integrated reversing monitor

Complete operation of the body via the terminal

No additional operating components installed in the cab

Raising the lift to the next travel height can be selected on the operating terminal

Operation of work lighting, heating, sludge flap

#### MBR 4 – Hot water unit

Tidy design:

All body components are compactly positioned on a power unit behind the cab.

Best possible accessibility of all components for service, maintenance and repair

#### MBR 4 – Hot water unit

Power unit with hot water unit (400 litre hot water tank, 45-50°C) for the best cleaning results

### MBR 4 – Cold water unit

Unit in cold water version

# AZ MBR4-8000WW Delta 2301 with Econic 6x2 3900+1350

Zusätzlich für 2-Achs-Fahrgestell mit Radstand 3900 mm kleine Tankgröße lieferbar mit 2 x 5500 l Tankvolumen

### ALB MBR4-8000 with Actros 4000+1350

### ALB MBR4-7000 with TG 3600+1350

#### ALB MBR4-7000 with TG 4x2 4200
