

Lifter 356

Commercial lifter

Lifter 356

Manual lifter with two separate pickup-units for MGB and large containers

MGB-swinging arm with unsplit lifting comb and integrated folding arms as well as large-container swinging arm with hook pickup-device and/or chain device for bulk-refuse containers

ergonomically-arranged lever operation

pivoting guide flap

hydraulically pivoting lid-opener

Lifter 356

Market sector

- industrial and commercial properties
- bulk-refuse collection

Container range

- MGB 80-340L EN 840-1
- MGB 500-1200L EN 840-2 - Flat lid
- MGB 770-1300L EN 840-3 - Dome lid
- bulk-refuse container 2,5-5m³ (DIN 30737) DIN EN 12574 with double trunnion receiver - Flat-/Dome lid
- bulk-refuse container 4,4 - 7m³
- bulk-refuse container 3,5m³ -Type Schörling
- special containers depending on model

Power source / Method of operation

- combined lifting/tipping movement via hydraulic cylinders and mechanical reversing levers
- active hydraulic container locking for lifting-comb pickup via MGB swinging arm
- swinging movement via hydraulic cylinder for large-container swinging arm
- active lowering movement

Mounting

- integrated lifter (welded) for open tailgates acc. to specification complying with DIN EN 1501 for open lifting device
- special tailgate preparation required on RCV

Advantages

- large container range
- low rake rail allows ergonomic loading, comfortable handloading of sacks and bulk refuse

active container locking

operating controls

lid opener

guide flap

Lifter 356

Versions

- model versions with weighing / ident preparation
- model versions with DIN and/or special-container folding arms
- model versions with elongated swinging arm for 10m³ bulk-refuse containers

Options

- pushbutton operation
- radio remote control for bulk-container swinging arm
- hydraulic tailgate safety-props
- central lubrication system
- etc.

ZOELLER-lifter

DELTA -2301

ROTARY III -2406

GAMMA -2349

OMEGA -249

Technik entscheidet

Technical innovations in sound high quality for maximum durability made ZOELLER the largest manufacturer of hydraulic lifting/tipping devices for waste disposal.

Five technically mature platforms:

- DELTA
- ROTARY
- GAMMA
- OMEGA
- MEGA

are the basis for a high degree of customer-oriented variants.

ZOELLER, as a turnkey supplier for rear loader type refuse collection vehicles, delivers on the basis of the following product lines:

- MICRO
- MINI
- MEDIUM
- MAGNUM

a unique range of body versions 2-31 m³.

The portfolio is rounded off by:

- Sideloaders
- Interchangeable systems in different versions
- Special vehicles

ZOELLER **High-level lifters** for closed collection in residential and commercial areas

- The high performance DELTA:
The lifter system for the greatest collection performance

ZOELLER **Low-level lifters** for closed collection in residential and commercial areas

- The compact ROTARY:
The lifter for flexible collection
- The integrated GAMMA:
The lifter for the individual collection
- The comfortable OMEGA:
Large functionality in solid structure

ZOELLER **Commercial lifters** for the collection of large containers and commercial waste

- The Allrounder MEGA:
The sophisticated bulk-refuse container lifter for universal applications

ZOELLER guarantees with its platform strategy in time production of highest quality and absolute flexibility for individual customer requests.

ZOELLER stands for solidity and durability, high availability, sophisticated ergonomics and occupational safety, cost-effectiveness, internationality and technical innovation.
