NEW GENERATION DELTA PREMIUM 2325/2525

INTELLIGENT. CONNECTED. CYBER SECURE.

With the new ZCSII control generation, the DELTA PREMIUM 2325/2525 becomes an intelligent, connected and future-proof system. Sensors, control unit and software work seamlessly together – for noticeably smoother operation, fewer operating errors, more predictable service and consistently high availability.

- **More Safety**
- **More Transparency**
- **More Efficiency**
- **More Trust**
- **Always Connected**
- **Always Up to Date**
- **Always Ready for Operation**

INTELLIGENT
Sensors and controls combine to create system intelligence: Conditions are continuously monitored and processes are automatically adjusted.

Your benefits:
- Earlier fault detection
- Less wear and tear
- Predictable maintenance
- Consequently, greater availability in daily operation

CONNECTIVITY
We connect the body, lift, chassis, and service into a system featuring modern diagnostics, digital interfaces, and update capabilities.

Your benefits:
- Faster diagnostics
- Easier updates
- More efficient service
- Vehicles with long-term performance

CYBER SECURE/ FUTURE-PROOF
We create a secure, open, and digital platform for current and future requirements.

Your benefits:
- Greater investment security
- Protection against new risks
- The foundation for future services and functionsnen
